1. Overview

This folder contains the reporting checklists for our Systematic Literature Review (SLR) on **Insider Threat Detection using Machine Learning**. To ensure the highest level of methodological transparency and reproducibility, we have followed the **PRISMA 2020 (Preferred Reporting Items for Systematic Reviews and Meta-Analyses)** statement.

These checklists serve as a map for reviewers to verify that all essential reporting elements (Rationale, Search strategy, Risk of bias and Data synthesis) are present within the study.

2. File Descriptions

- **PRISMA_2020_Main_Checklist.pdf**: The full 27-item checklist mapping specific reporting requirements to the page numbers and sections in the submitted manuscript.
- **PRISMA_2020_Abstract_Checklist.pdf**: A specialized checklist ensuring that the article abstract contains all necessary technical details for indexing and clarity.
